

Heeley's Highlights

Issue No: 12
Date: 27/11/2026

Dear Parents,
As we head into December, I wanted to share this poster with you. I think it's really important to remember that as children get older, they WILL remember playing games, having fun and enjoying family time. They WON'T remember the expensive gifts they had. So my message this week is please don't stress about Christmas, spend what you can afford and just enjoy being together as a family.

This week in assembly we have been learning how to keep safe in the dark, learning the message 'Be Bright, Be Seen.'
We discussed that now it is darker earlier, it is difficult for vehicles to spot pedestrians, so wearing bright clothing helps us to be seen. Reflective strips / keyrings / bands and High Vis jackets are all good ways to keep safe. Super Sue's Safety Crew are looking at ways to promote this and we are looking at the possibility of selling some of these.
I hope you have a great weekend. Enjoy Newport Light Switch if you are attending tomorrow.
Mrs Heeley, Headteacher

Important Information Regarding the Use of Privately Owned E-Scooters

Legal Classification

Privately owned e-scooters are legally classified as motor vehicles under the Road Traffic Act 1988. As privately owned e-scooters cannot currently obtain the insurance required for lawful use on public roads, it is against the law to ride them in public places, including roads and pavements.

Responsibilities of Parents and Guardians

Parents, guardians and other adults should be aware that knowingly allowing a child to use a privately owned e-scooter unlawfully may result in the adult being prosecuted for a "cause or permit" motoring offence.

Allowing the use of an uninsured vehicle can result in 6 penalty points and a £300 fine. Penalty points may also have implications for the individual's driving record and future vehicle insurance.

Consequences for Young Riders

Pupils who ride privately owned e-scooters in public may also face legal consequences. These can include:

- Seizure of the e-scooter by police under Section 165 of the Road Traffic Act.
- A penalty for using a vehicle without insurance, potentially resulting in 6 penalty points and a £300 fine.
- A penalty for riding without the appropriate driving licence, potentially resulting in 3 penalty points and a £100 fine.
- Additional penalties for offences such as ignoring traffic signals or using a mobile phone while riding.

Where a young person does not yet hold a driving licence, penalty points may be recorded against a DVLA "ghost licence" and can become relevant when they later apply for a provisional or full driving licence.

Request to Schools

We ask schools to ensure that pupils and parents are made aware of these legal requirements and the potential consequences of using privately owned e-scooters unlawfully.

Schools may wish to include this information in communications to parents, assemblies, newsletters and relevant road-safety education.

Our priority is to help keep young people safe and ensure that pupils and their families understand the legal responsibilities associated with e-scooter use.
