

Parents' Guide to Class Dojo

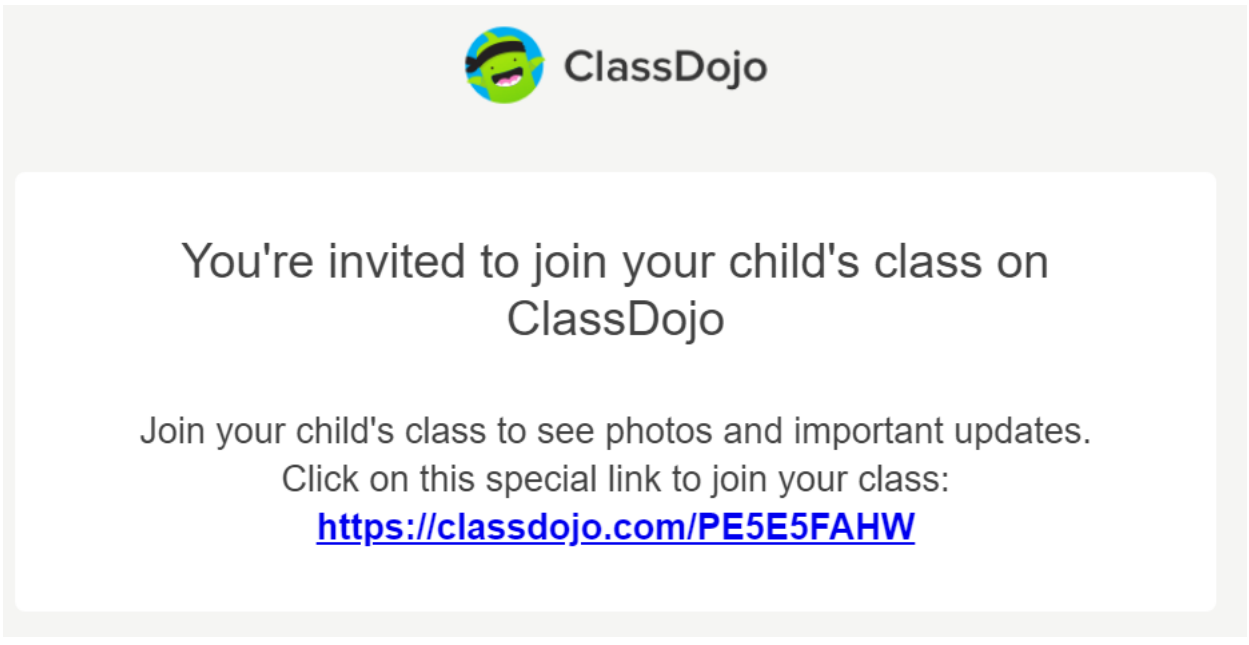

At Newport Infant School we use Class Dojo to reward pupils for their effort, hard work and determination. In 2020, during our school closure, we decided to use Class Dojo to extend our support to parents and guardians.

You can download the Class Dojo app or visit www.classdojo.com to use these services.

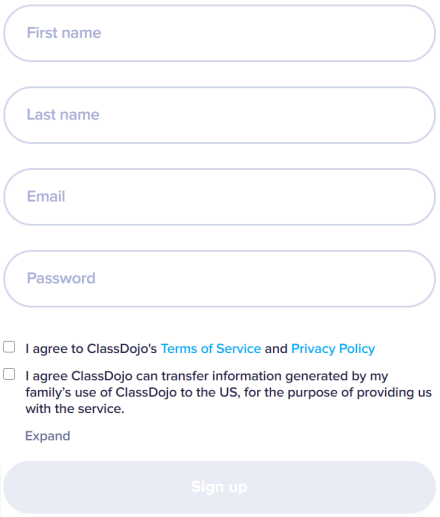

If you would like to join our Class Dojo community to see class stories, whole school stories or to message us you may **request a link** from your child's teacher.

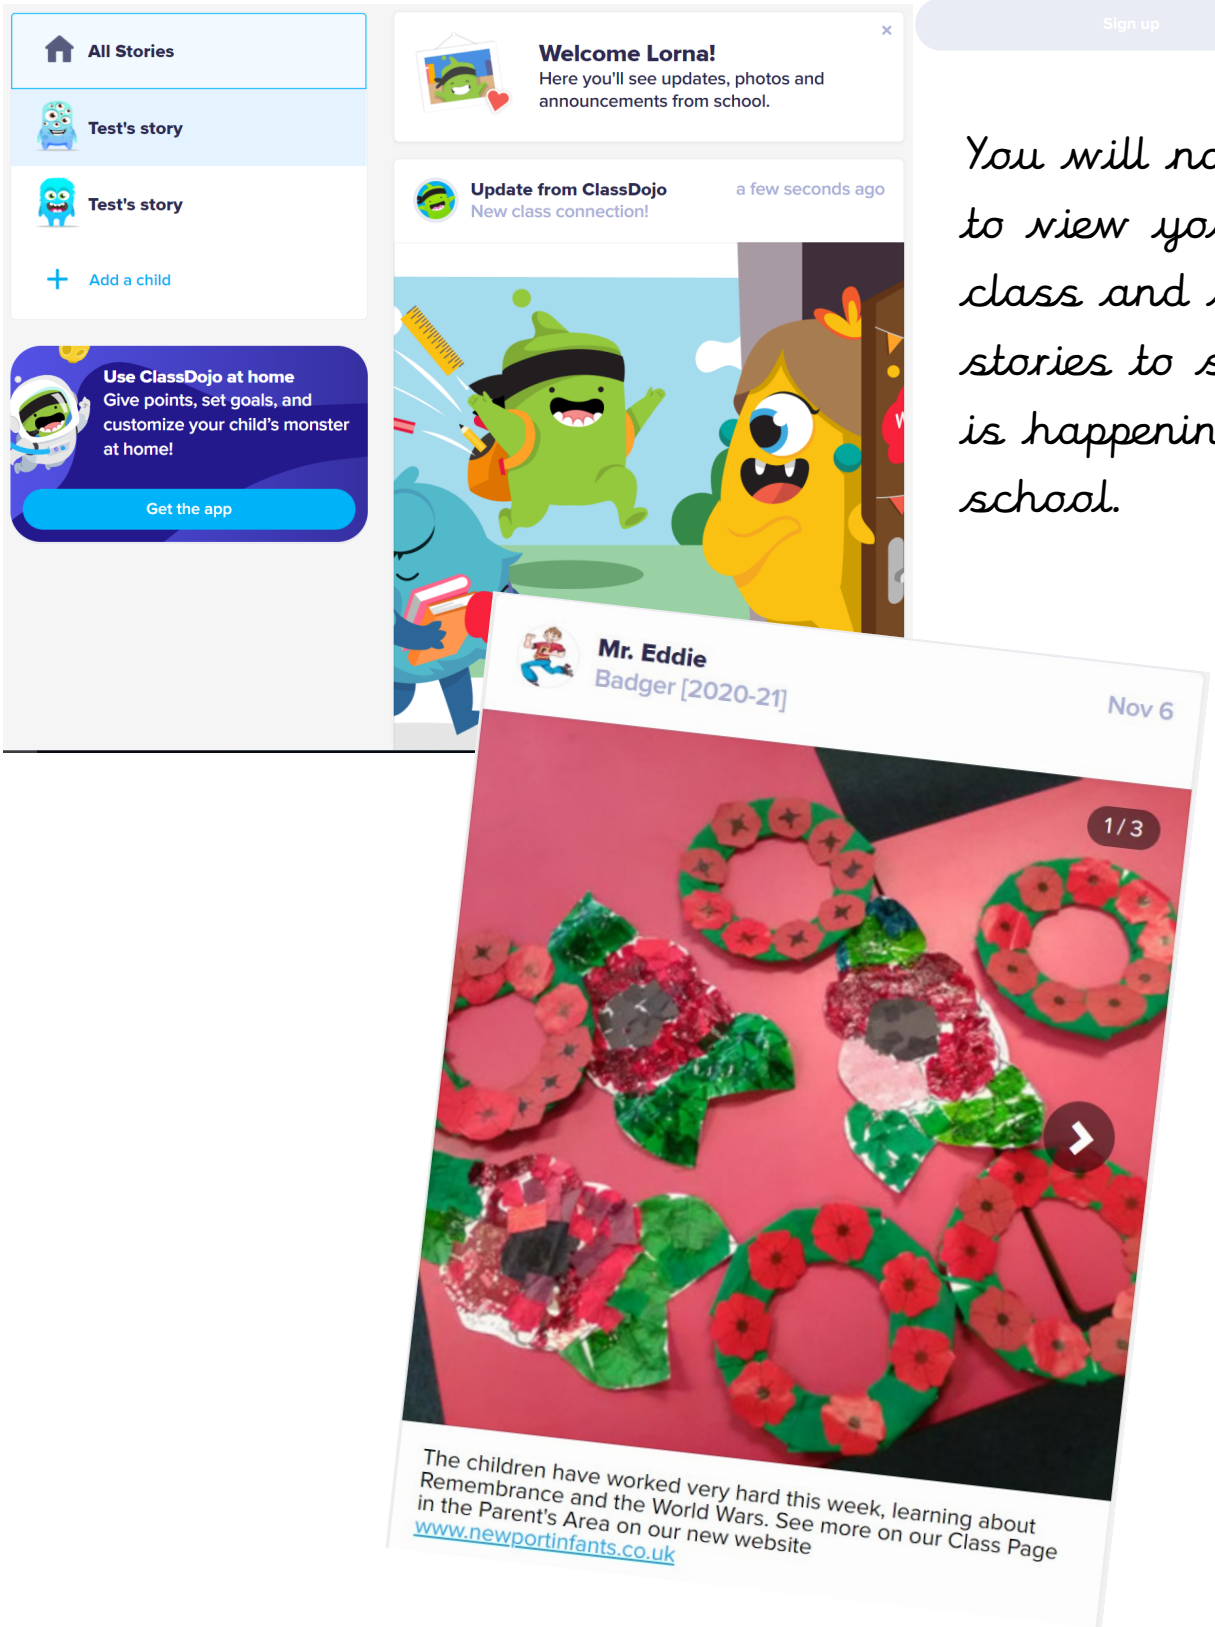

You will receive an email like the example below:

Images sourced from www.classdojo.com

Confirm your details and sign up.

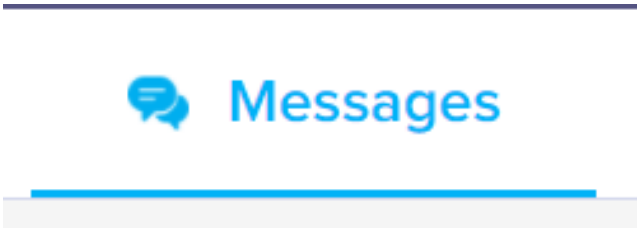

You will now be able to view your child's class and school stories to see what is happening in school.

To message your child's teacher click onto 'Messages' at the top of the home page.

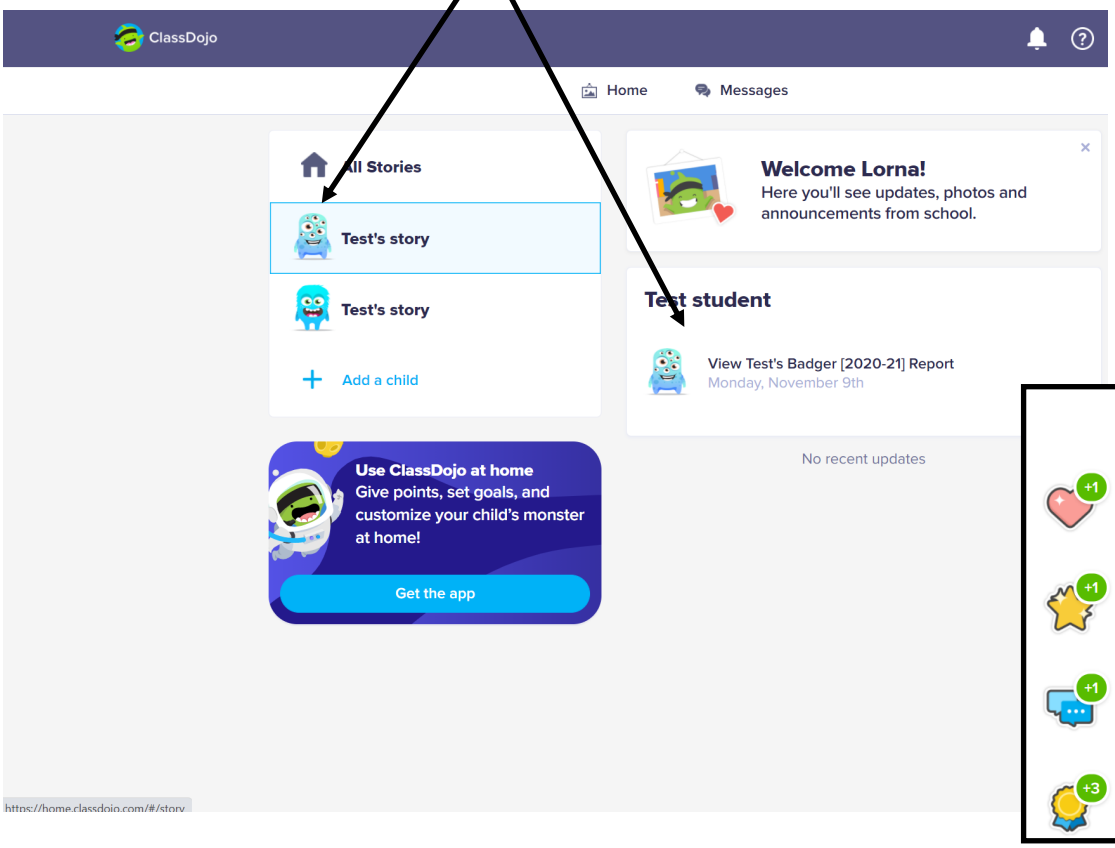

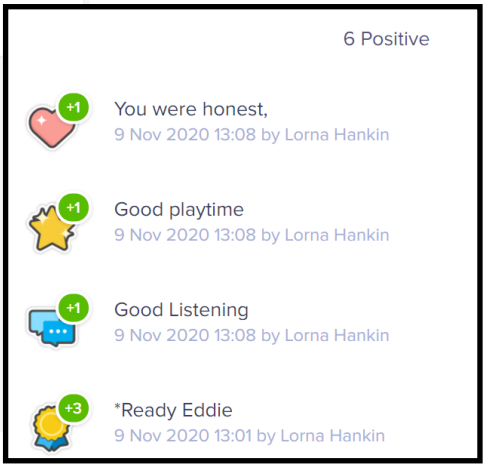

Here you can start a conversation or send files and images for your child's teacher to see—this is great for home learning!

Our generic school account is set to Mr Eddie, linked to our school mascot Ready Eddie. Your child's teacher can view these messages in school or you may wish to send it directly to their own teacher account.

As a parent, you are able to view your child's weekly report to see the Dojos they have been awarded in school. Click into their story and report from the homepage.
