Easter Flower Cross Craft

You will need:

- 2 lolly sticks (per cross)
- Brightly coloured tissue paper
- Glue

Instructions

1. Put a small amount of glue in the middle of one of your lolly sticks.
2. Place this stick flat on the table and put your other lolly stick over the top of the first one, making a cross shape. Make sure one 'arm' of the stick is longer than the others by moving the top stick down slightly.
3. Hold in place until the glue has set.
4. Carefully, tear some brightly coloured tissue paper into small pieces. The cross looks the most effective with lots of different colours.
5. Gently, scrunch up each piece of tissue paper. Don't do it too tightly though – you want each piece to look like a small flower head.
6. Spread some glue along each 'arm' of your cross. Be careful not to use too much!
7. Place each piece of scrunched-up tissue paper on the cross, gently pressing it down so it sticks to the glue.
8. Leave your cross to dry.
9. Put your cross somewhere where its bright colours will remind you of Easter and new life!
