Yesterday we had a look at what makes us special and unique. Today we are going to look at our families.

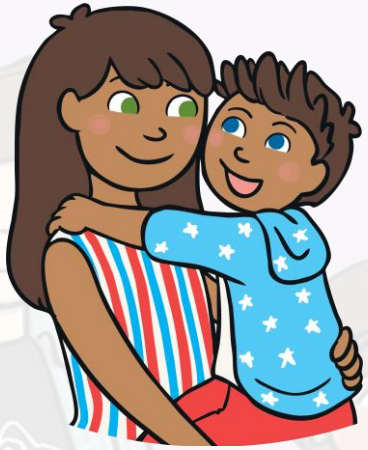

Let's have a look at what makes a family.

Every Kind of Family

Some families have a mum.

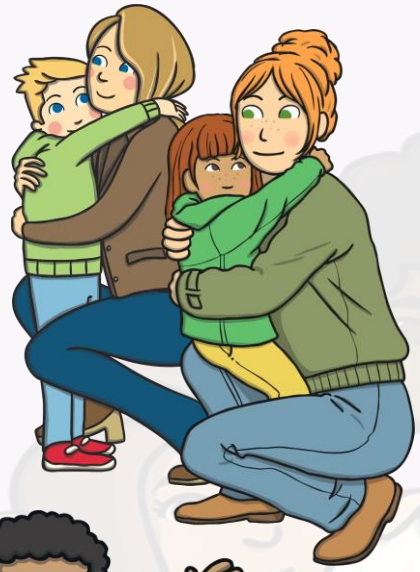

Some families have a dad.

Some families have two mums.

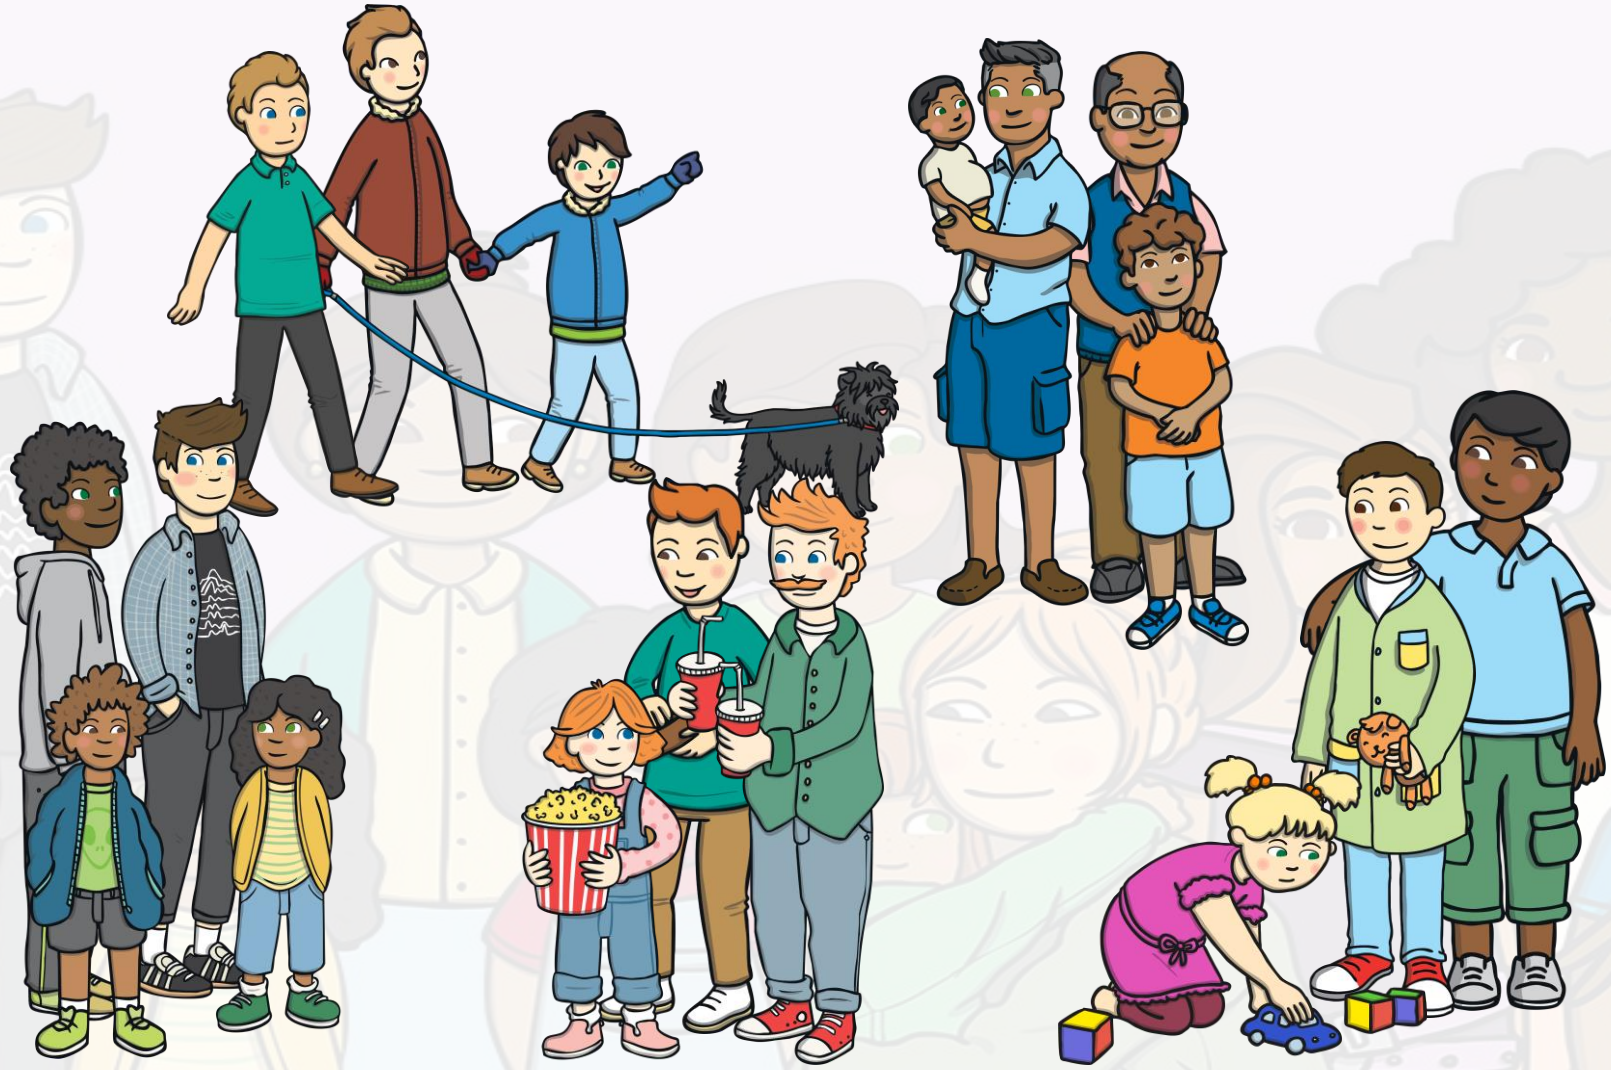

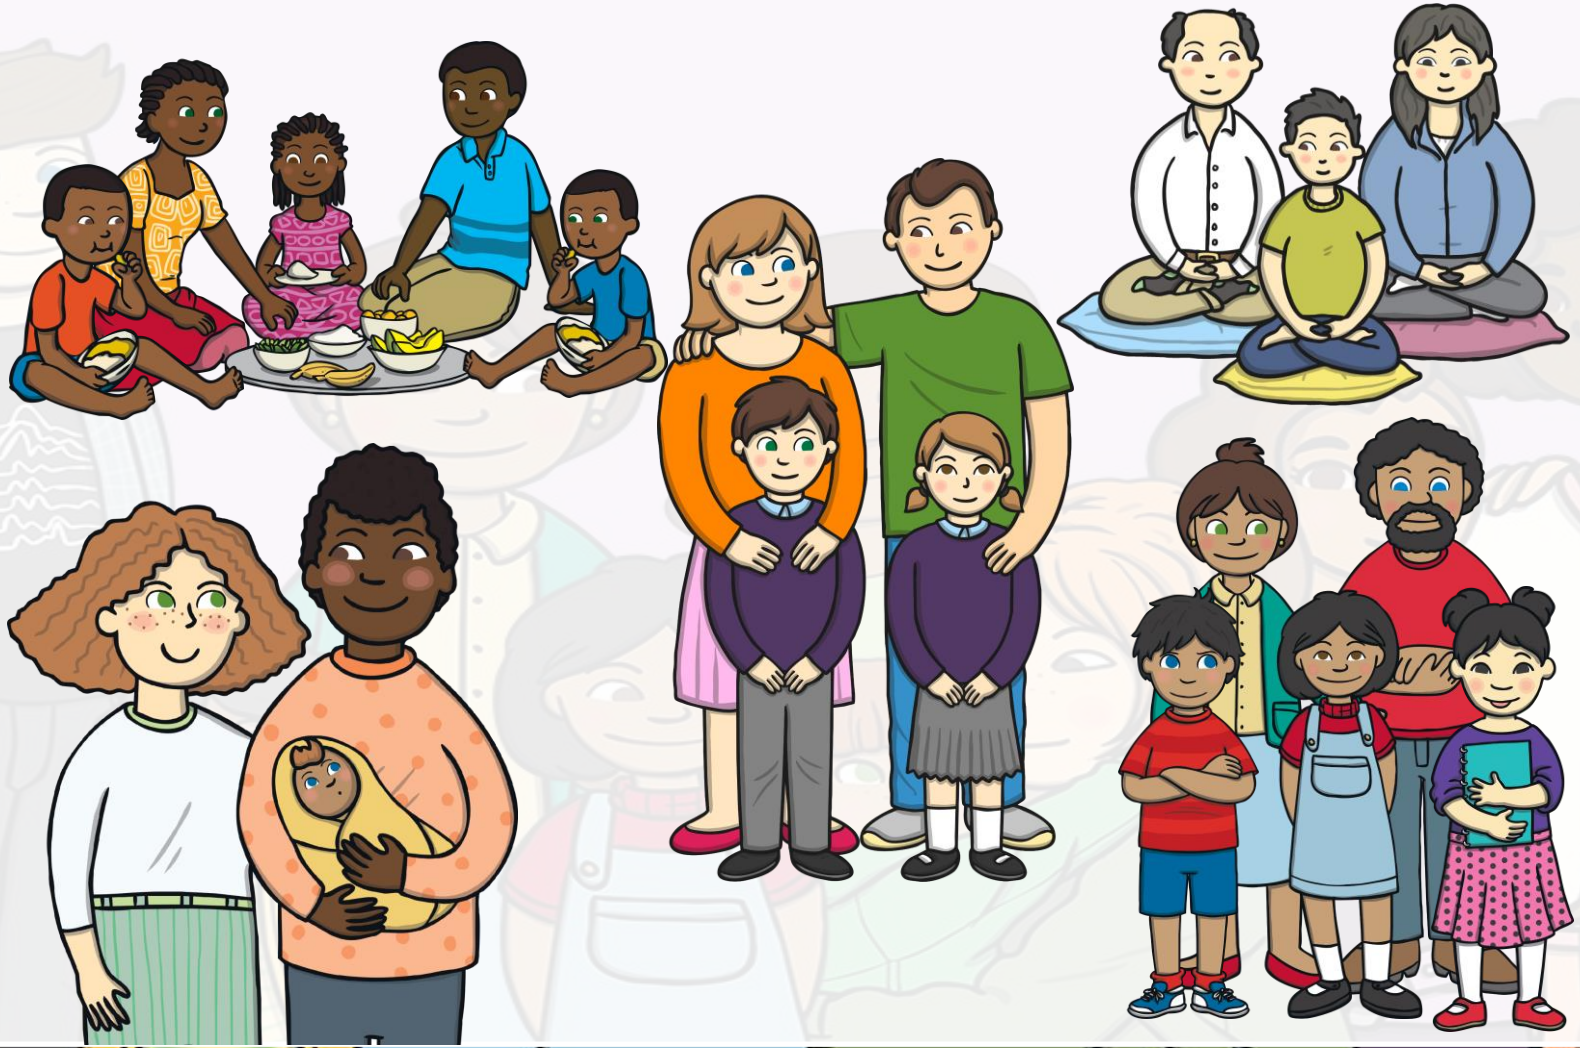

Some families have two dads.

Some families have a mum and dad.

Some families have carers.

Some families have grandparents.

Some families have step-parents.

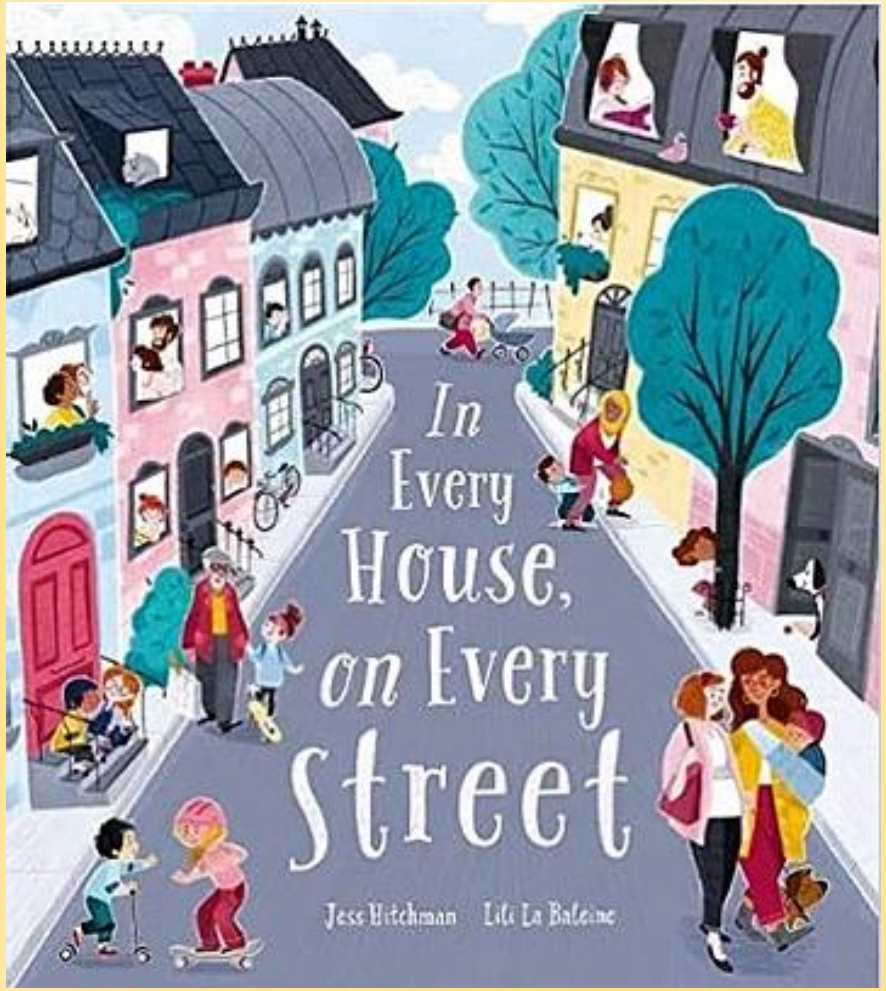

Families come in all shapes and sizes.
Love is what makes them all the same!

Let's read the story:

Think about the people in your family – What would your house look like?

Where in the house would they be and what would they be doing?

What can we spot people doing?

Where are the family and what are they doing?

Dad is the the garage fixing the old car.
Mum is in the living room watching tv and having a rest.
My brother is in the bath playing in the bubbles.
I am in my bedroom reading an exciting book.

Now it's your turn...
