Naming Plants

Wild Plants

A wild plant seed grows where it falls. It doesn't need to be planted or cared for as it grows.

Garden Plants

Garden plants are plants that people choose to grow in their gardens.

Activity 1

Can you name the following plants? Choose the correct answer.

Challenge: Can you choose either 'wild plant' or 'garden plant' for the plants you have named?

Challenge!

Can you choose the correct word to complete these sentences about different types of trees?

A Select tree loses its leaves each year. An example of this type of tree is a Select.

In Select, the leaves on deciduous trees usually change colour and fall off. By winter they usually have no leaves on their branches.

An Select tree keeps its Select leaves all year round. An example of this type of tree is a Select.

Evergreen trees still have green Select in winter.
