Subject: Numeracy—Subtraction (no decomposition) Date: 17.1.22 & 18.1.22 T/.TA/I/OA/MAP

Learning Objective: I can subtract a two digit number and ones.

I can subtract two 2-digit numbers.

I can use place value to solve subtraction problems.

Learning Ladder Use a number line as an additional method to check answers

Solve subtraction calculations/word problems by subtracting H/T/U

Solve subtraction word problems by subtracting tens/units.

Subtract 1/2 digit numbers accurately

Cross out tens/units to subtract

Write a number sentence correctly

Draw stick and stones to support calculation

Lucy has 45 sweets and gives Tom 12. How many does she have now?? 	Anna had 32p and spent 12p on an apple. How much does she have left? 
Jane had 37 balls. She dropped 15. How many balls were left? 	Polly finds 34 coins. She gave 13 to Ben. How many coins did Polly have left? 
Sam is thinking of a number. He started at 84 and counted back 33. What is his number? 	Mum had 57 presents to delivered. She delivered 32. How many presents did she still need to deliver? 
Crisps weigh 78g. Max ate 36g for lunch. How much did he have left to eat? 	Lilly won 55 pieces of chocolate and gave 23 to her friend. How many pieces of chocolate did she have left? 

Lucy has 15 sweets and gives Tom 4. How many does she have now?? 	Anna had 16p and spent 12p on an apple. How much does she have left? 
Jane had 25 balls. She dropped 4. How many balls were left? 	Polly finds 24 coins. She gave 13 to Ben. How many coins did Polly have left? 
Sam is thinking of a number. He started at 25 and counted back 20. What is his number? 	Mum had 24 presents to delivered. She delivered 12. How many presents did she still need to deliver? 
Crisps weigh 34g. Max ate 12g for lunch. How much did he have left to eat? 	Lilly won 25 pieces of chocolate and gave 12 to her friend. How many pieces of chocolate did she have left? 

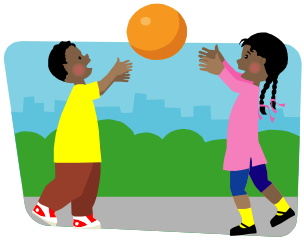

Lucy has 26 sweets and gives Tom 14. How many does she have now??

Anna had 36p and spent 24p on an apple. How much does she have left?

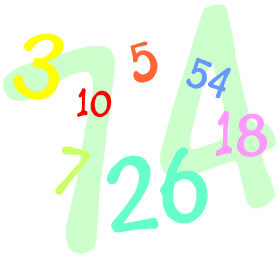

Jane had 45 balls. She dropped 12. How many balls were left?

Polly finds 24 coins. She gave 14 to Ben. How many coins did Polly have left?

Sam is thinking of a number. He started at 35 and counted back 20. What is his number?

Mum had 41 presents to de-livered. She delivered 30. How many presents did she still need to deliver?

Crisps weigh 48g. Max ate 16g for lunch. How much did he have left to eat?

Lilly won 43 pieces of chocolate and gave 22 to her friend. How many pieces of chocolate did she have left?
