Subtraction using sticks and stones and number line
Subtraction using sticks and stones
N
W

Order these numbers as quickly as you can!

27 75 18 84 71

7
- 3
4
Today we are learning to
subtract numbers using
sticks and stones.

What do we know about subtraction?

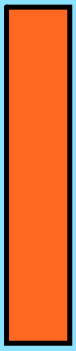

What maths pictures have we used in the past to help us solve problems?

How can we use our sticks and stones to help us with our subtraction!

26 - 4 =

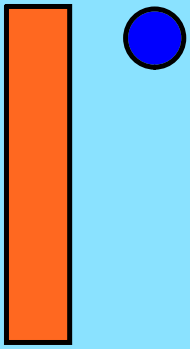

T U

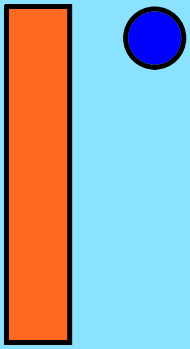

37 - 5 =

How is this different?
What do we need to remember?

T U T U
34 - 20=

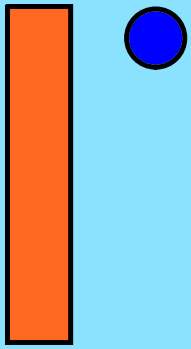

Can you solve this one?

T U T U
54 - 22=

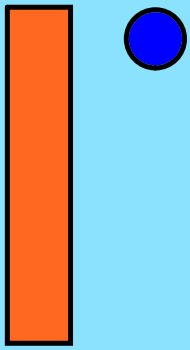

Can you solve this one?

T U T U
39 - 17=

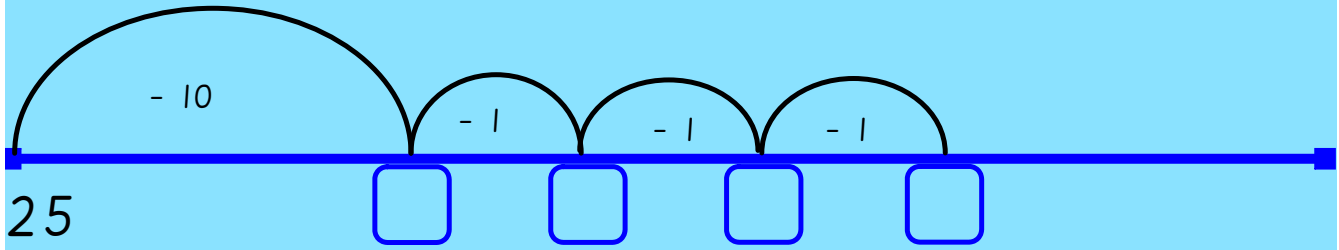

Red/Pink/Greens to go tables to start

Let's have a look at how we can solve these problems and check our answers using a number line.

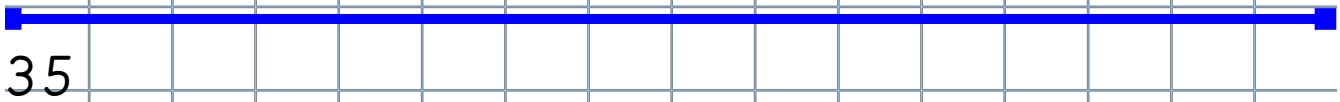

T U T U

25 - 13 =

Let's have a look at how we would set this out in our books.

T	U		T	U	
3	5	-	2	2	=

35

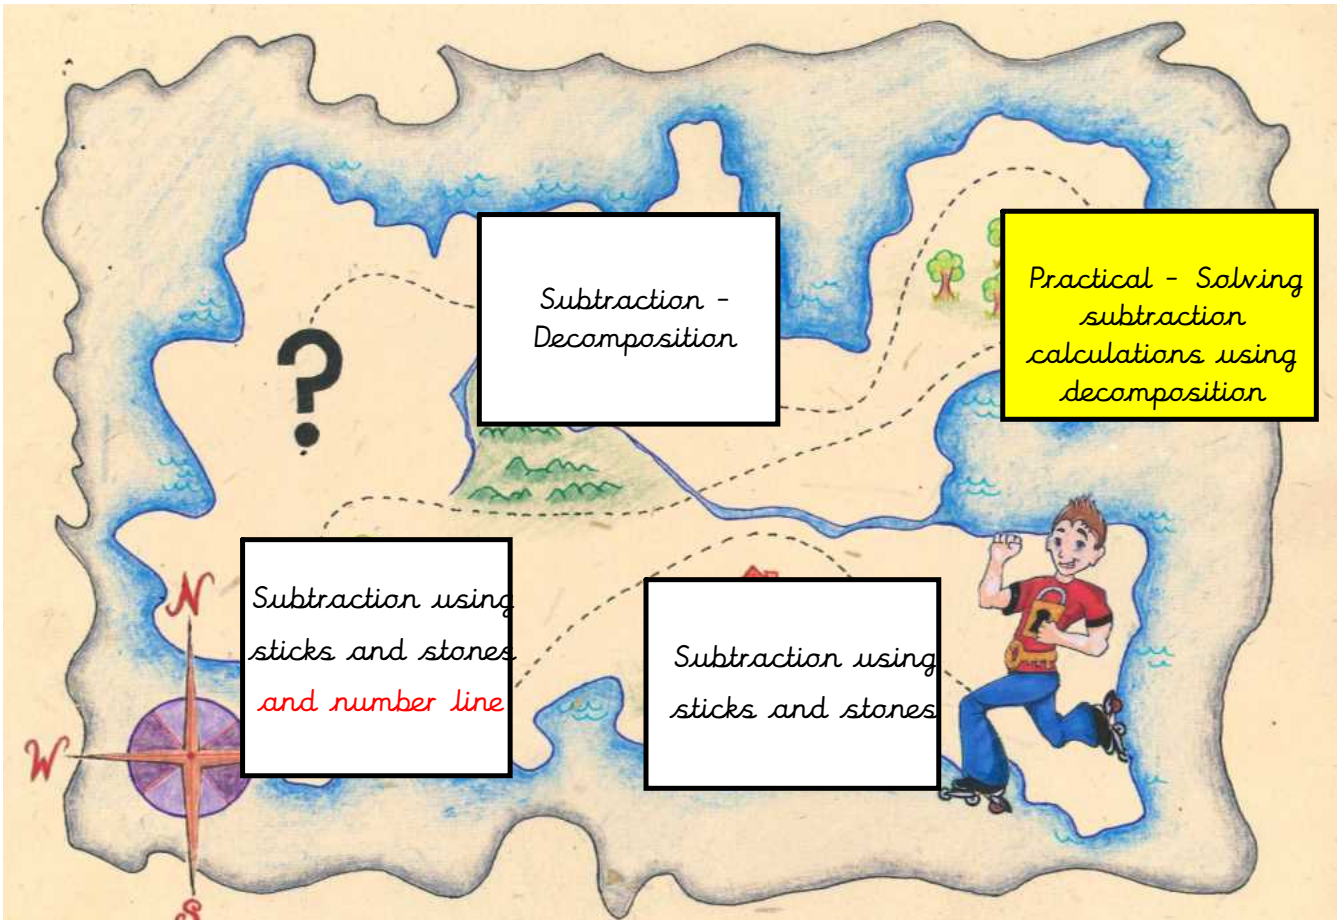

Now it's your turn!

- Start with Bronze.
- Write the number sentence in your book.
- Write T or U above both digits.
- Draw the sticks and stones.
- Solve by crossing out the tens/units
- Draw a number line and check your answer on a number line too - do they match?

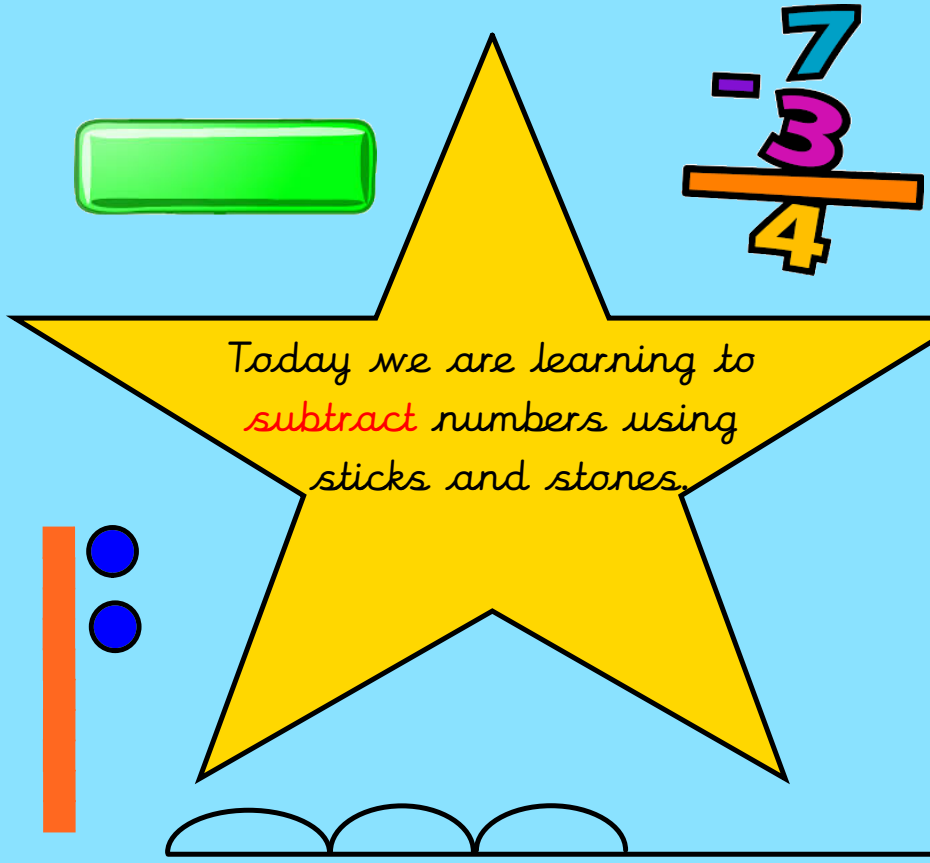

- Green/Pinks - Only use sticks and stones
- Move onto Silver if you have achieved Bronze!
- Silver - Gold!

Plenary.....

Reds/blues to show working out on a numberline.

Today we are going to carry on with our subtraction challenges!

Show me the sticks and stones for .....

Can we put these numbers into sticks and stones?

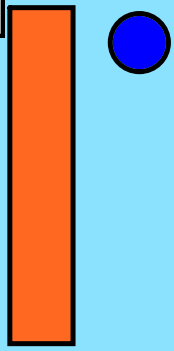

25

16

51

39

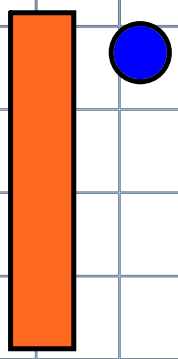

T U

37 - 5 =

What does this look like on a number line?

T U T U
35 - 21 =

What does this look like on a number line?

How would we tackle a word problem?

Jane had 45 balls. She dropped 12. How many balls were left?

Your Turn!

Start at the level set - Bronze - Silver - Gold - Platinum

Who's going to be a Ready Eddie today?
