Today we are going to create artwork in the style of Picasso!

What do we know about him?

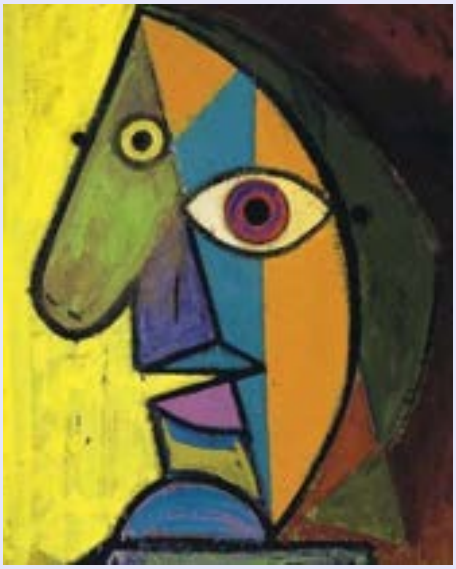

Let's find out more!

What did you learn?

His style of art was very different from Degas and Van Gogh.

Let's have a look at some more of his art!

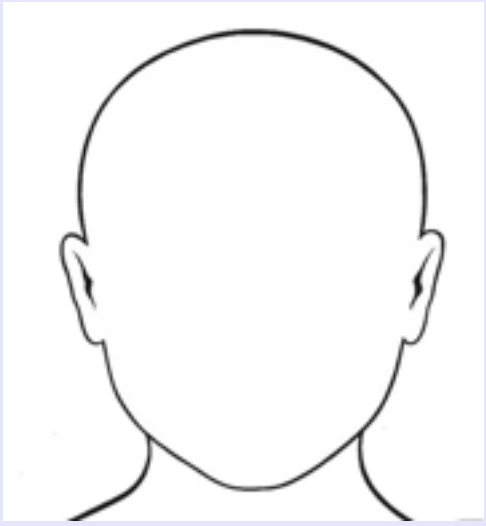

This is one of his self portraits...

We are going to try and copy his style !!

How could you recreate Picasso's artwork?

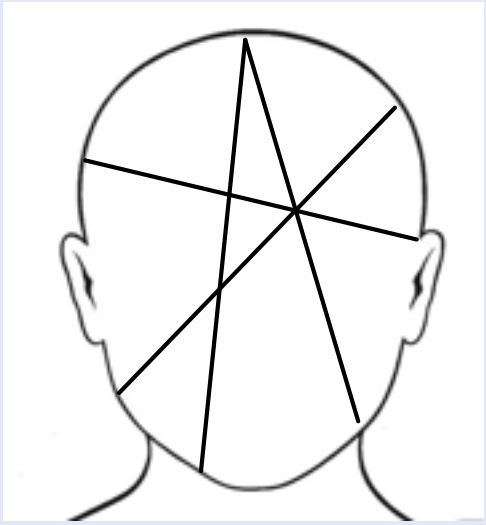

Today we are going to put the eyes, nose and mouth in different places to make it look a bit strange!

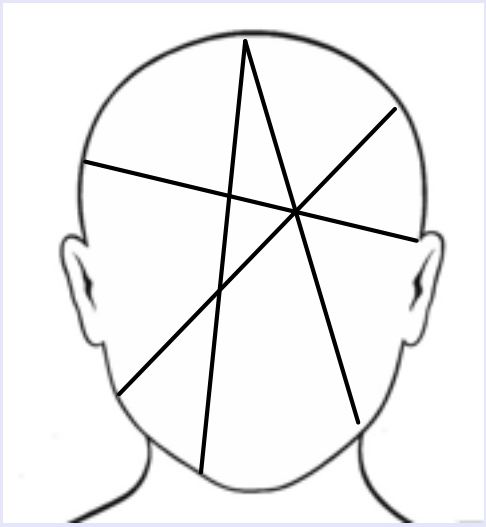

You will need a dice!

Now we have to split his face up using 4 lines!

After we have done this we will paint each area a different colour, just like Picasso!

Let's have a look at your paintings!
